

**South Miami Baptist Hospital**

Dominion Builders completes its renovation of South Miami Baptist Hospital's main entrance, located at 6200 SW 73 St. The hospital first opened its doors in 1960.

The renovation included the installation of a new 225-square-foot water feature along with a landscape design to improve overall traffic flow. It now serves as the focal point of the main entrance to the bustling hospital, which is owned by Baptist Health South Florida.
