Dominion Builders Celebrates Completion of Pure Plastic Surgery Center

Dominion Builders is pleased to announce the completion of Pure Plastic Surgery, a medical clinic for cosmetic surgery, located at 7265 SW 93rd Ave., Suite 201, in Miami.

"It has been a pleasure to work with SAE-AZ Corporate Holdings, and we thank them for trusting our firm with the realization of their innovative medical spa and surgery center," said Mark Gemignani, president of Dominion Builders.

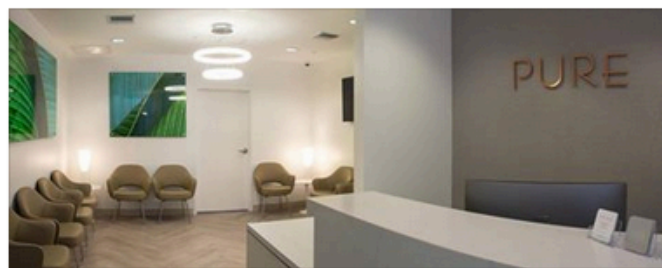

"We are very happy with the way that the offices, surgery, and examination rooms have been beautifully finished," said Dr. S. Alexander Earle, co-owner of Pure Plastic Surgery. "This is exactly what we envisioned for our business and our clients."

Designed by Riesco Architects of Coral Gables, Fla., the medical facility features an expansive reception and lobby entrance, exam rooms, state-of-the-art procedure room and a dedicated multi-recovery area. The construction includes custom architectural millwork that can be seen throughout the facility, as well as a distinctive design for the business and sterilization areas. All specifications were selected to maintain clean room standards without minimizing on the design.

"Opening this facility was a long goal of ours, and we couldn't have asked for a greater way to launch our practice," said Dr. Alexander Zuriarrain, co-owner of Pure Plastic Surgery.

"We are excited to have brought this project to life for the Pure Plastic Surgery Center team and look forward to the facility serving as their new home for years to come," Gemignani said.
